The following is an examiner's statement of reasons for allowance: Stolmeier et al. (US 5871281) and Herrington et al. (US 5020194) are the closest art of record and while both have the upwardly extending first length portion and inwardly extending second length portion, each either removes material from the upwardly extending first length portion as in Stolmeier et al. or slit the upwardly extending first length portion as in Herrington et al. This yields in each case a resulting structure showing a notch or slit in the upwardly extending first length portion rather than as claimed by applicant, the upwardly extending first length portion being continuous and of constant length along the entire longitudinal x-axis of the first fastening strip so as to present a unique first length in the z-axis direction from end to end. Therefore, in the teachings of both patents, the first length of the first upper flange portion is not continuous and of constant length and spanning the entire longitudinal x-axis of the first fastening strip as required by each independent claim. There is no suggestion to modify the teachings of Stolmeier et al. or Herrington et al. to have such structure as indicated by applicant in his remarks received June 14, 2005 on page 6 paragraph 3 that also refers to applicant's remarks in the response received March 14, 2005 on page 7 paragraphs 2 and 3 wherein the advantages are discussed by applicant and are commensurate with the scope of these claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

NEW CENTRAL FAX NUMBER

Effective July 15, 2005

On July 15, 2005, the Central FAX Number will change to **571-273-8300**. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.

Most facsimile-transmitted patent application related correspondence is required to be sent to the Central FAX Number. To give customers time to adjust to the new Central FAX Number, faxes sent to the old number (703-872-9306) will be routed to the new number until September 15, 2005. After September 15, 2005, the old number will no longer be in service and **571-273-8300** will be the only facsimile number recognized for "centralized delivery".

CENTRALIZED DELIVERY POLICY: For patent related correspondence, hand carry deliveries must be made to the Customer Service Window (now located at the Randolph Building, 401 Dulany Street, Alexandria, VA 22314), and facsimile transmissions must be sent to the Central FAX number, unless an exception applies. For example, if the examiner has rejected claims in a regular U.S. patent application, and the reply to the examiner's Office action is desired to be transmitted by facsimile rather than mailed, the reply must be sent to the Central FAX Number.
